

# Ana Seiculescu

[ junior ] web developer under construction

---

*Hello, I'm Ana, and I've decided to change my career.*

*My studies and work kept me in a close relationship with the computer. Working with architecture software is constantly learning and solving all kinds of problems.*

*After some research, my curiosity took me where I discovered that I enjoy learning and applying knowledge in programming.*

*I'm only at the beginning of my journey to learn about this world, and it feels like it's a huge, challenging, but beautiful universe here to discover and learn about.*

---

## SKILLS

Managing smaller projects has taught me to be **independent** and **proactive** while working on larger ones requires **teamwork**. Being part of a small team also meant I had to be **flexible** when it came to my responsibilities, and we all took turns **communicating with clients**.

Many aspects of daily work with architecture software help with “computer literacy” and can be applied to software development.

Technologies: HTML, CSS, JavaScript, jQuery, SaaS, NodeJS, GIT (version control), GitHub, APIs  
Other technologies: AutoCAD, Photoshop, Archicad

## EDUCATION

**BIT Academy** platform - remote courses (Prof. Lucian Cornianu) - *Certificate of Completion*:

- [Front-End Web Development Module 2 \(JavaScript\)](#)
- [Front-End Web Development Module 1 \(HTML/CSS\)](#)

Timisoara, Romania  
(+40) 743005082

---

**Codecademy** platform - online courses - *Certificate of Completion*:

- [Learn JavaScript](#)
- [Learn CSS](#)
- [Learn CSS: Box Model and Layout, Flexbox and Grid, Responsive Design](#)
- [Learn Git: Introduction](#)
- [Learn the Command Line](#)
- [Learn GitHub: Introduction](#)
- [Learn React: Introduction, Lifecycle Methods](#)

**freeCodeCamp** platform - **JavaScript** Course

**The University of Architecture and Urbanism Ion Mincu**, Bucharest - *Master's Degree in Architecture*

OCTOBER 2008 - JULY 2014

**Technical High School**, Ramnicu Valcea, Romania - *science major*

## EXPERIENCE

**ARHINET PLUS**, Ramnicu Valcea, Romania - **Architect**

SEPTEMBER 2014 - JUNE 2022

After my internship at this company, I *obtained my signature right* by passing the physical exam based on a portfolio and an interview at the *Romanian Order of Architects (OAR)*.

The job required:

- *discussions with clients* at the initiation of a project and during the project;
- *teamwork* in elaborating written and drawn pieces of architecture (memoirs, design plans sections, facades, renderings) to obtain approvals and building authorization;
- *collaboration with other specialties* in the field: designers, and construction companies;
- *visiting the construction sites* and interacting with the builders.

## LANGUAGES

- English: intermediate
- Spanish: beginner
- French: beginner
