Ana Seiculescu

[junior] web developer

Hello, I'm Ana, a junior in web development and a construction architect.

My studies and work kept me in a close relationship with the computer. Working with architecture software is constantly learning and solving all kinds of problems.

Ever since I uncovered my curiosity and passion for web development, it has become an enduring, invigorating, and splendid journey.

SKILLS

Managing smaller projects has taught me to be **independent** and **proactive** while working on larger ones requires **teamwork**. Being part of a small team also meant I had to be **flexible** regarding my responsibilities, and we all took turns **communicating with clients**.

Many aspects of daily work with architecture software help with "computer literacy" and can be applied to software development.

Technologies I've worked with :   HTML, CSS, JavaScript, GIT (version control), GitHub
Technologies I had brief contact with :   jQuery, SaaS, NodeJS, APIs, React.JS
Other technologies: AutoCAD, Photoshop, Archicad

EDUCATION

Nagarro - **WebDev Remote Learning** program

BIT Academy platform - remote courses (Prof. Lucian Cornianu) - *Certificate of Completion*:

- **Front-End Web Development Module 2 (JavaScript)**
- **Front-End Web Development Module 1 (HTML/CSS)**

https://anaseiculescu.github.io/Portfolio/

Codecademy platform - online courses - *Certificate of Completion*:

- **Learn JavaScript**
- **Learn CSS**
- **Learn CSS: Box Model and Layout**, **Flexbox and Grid**, **Responsive Design**
- **Learn Git: Introduction**
- **Learn the Command Line**
- **Learn GitHub: Introduction**
- **Learn React: Introduction**, **Lifecycle Methods**

freeCodeCamp platform **- JavaScript** Course

In my Portfolio, you can see what I've done with my learning in small projects *like Collection Map, Breakfast Recipes, or Color Picker, and some things* about me *in Story.*

The University of Architecture and Urbanism Ion Mincu, Bucharest - *Master's Degree in Architecture*
OCTOBER 2008 - JULY 2014

Technical High School, Ramnicu Valcea, Romania - *science major*

EXPERIENCE

ARHINET PLUS, Ramnicu Valcea, Romania - ***Architect***
SEPTEMBER 2014 - JUNE 2022
After my internship at this company, I *obtained my signature right* by passing the physical exam based on a portfolio and an interview at the *Romanian Order of Architects (OAR).*

The job required:

- *discussions with clients* at the initiation of a project and during the project;
- *teamwork* in elaborating written and drawn pieces of architecture (memoirs, design plans sections, facades, renderings) to obtain approvals and building authorization;
- *collaboration with other specialties* in the field: designers, and construction companies;
- *visiting the construction sites* and interacting with the builders.
